Paintable Waterproof Large Skirting

ORDER CODE	DIMENSIONS
PGHSK80PAINT	2400 x 15 x 80 mm

Applicable for:

All Pergo Laminate, Vinyl and Parquet floors.

The floor must be able to expand and contract on all sides. This is why an expansion gap must be provided on all sides of the floor, around pipes, thresholds and under door frames. The exact expansion gap size depends on the floor type. Consult the installation instructions of your Pergo floor to know the required size of the expansion gap. To finish off this gap, we offer a wide range of skirting and profiles.

Installation

The skirting can be installed in the following way:

1. If you choose to paint the skirting, it is best to sand and prime the skirting to ensure the best adhesion. First always verify if the paint bonds well. Preferably, use a water-based lacquer paint.

2. Simply glue the skirting to the wall with the Pergo Multiglue.

3. You can paint the skirting in the colour of your choice or you can leave it as a white skirting.
